

3.6 Logical Framework Matrix

This indicative logical framework constitutes the basis to design more detailed logical framework matrix(-ces) at contracting which will be used for monitoring, reporting and evaluation. The logical framework matrix(-ces) at contract level should include relevant indicators identified in this section.

The expected outputs and related indicators (with baselines and targets) may be updated during the implementation of the action, no amendment being required to the Financing Decision.

In case baselines and targets are not available for the action at the time of adoption of the Financing Decision, they should be provided for each indicator at signature of the contract(s) linked to this Financing Decision, or in the first progress report at the latest. New columns may be added to set intermediary targets for the output and outcome indicators whenever relevant.
